

PORTABLE LOUD SPEAKERS

- High power, electronic megaphones.
- Excellent sound quality.
- Trouble-free, solid-state design.
- Versatile applications.

Federal Signal's electronic megaphones let you take control of hectic situations. The models A12SA and A15 are the most powerful, light-weight (less than four pounds each) electronic units available. The special noise cancelling microphone improves voice reproduction even at long distances. Rugged, high-impact parts are virtually indestructible, providing long service life. Federal Signal loud speakers are ideal for law enforcement, fire, marine, athletics, industry, and a variety of other markets.

Model A12SA

Voice Gun® model A12SA electronic megaphone qualifies for use at any emergency scene. It is made of high-impact, flame-retardant plastic. This added benefit makes it useful for hazardous applications where fire is a threat.

Model A15

The model A15 is a compact and effective transistorized megaphone. A maximum of 10 watts of output provides up to 800 feet of power. The model A15 loud speaker includes volume control and pistol grip with trigger switch, and operates on six "C" size batteries. Great for crowd control!

How To Order

1. Choose a model.

- A12SA** Pistol grip Voice Gun megaphone, flame retardant, red
- A15** Pistol grip transistorized megaphone, white/red

2. Order optional mount kit for A12SA.

- A12MK** Surface mount kit
